

From the Archives – October 2025

As the weather is getting colder, most gardens are now settling in for the colder months. This month, I wanted to highlight our Gardening Angels from 2002. The Angels have always maintained our Town Gardens and have kept them beautiful. Over time, the gardens that the Society has managed have changed, but the commitment to both our Town and our love of horticulture has never wavered. Remembering our Motto, “Gardens are for Sharing.”

Vivian Petho – Archivist
