

## From The Archives – October 2024

The Fall weather is definitely upon us now. We have cool mornings, brisk winds, and colourful leaves all over the ground.

This month, I have chosen to feature some past members of our society and a picture taken on March 15, 2005. This image was taken as each member received their Life Member pins.

Pictured left to right: Margaret Leech, Erik Hogh, Gladys Van Dorssen and Betty Douglas. Amongst this group are: former presidents, Trillium Award recipients, archivists, and most of all fantastic gardeners.

Remembering people like these and their achievements in their communities and this Society is one of the reasons I became the Archivist. See you in next month's edition.

Vivian Petho - Archivist
