

From the Archives – Our Yearbook

As we draw closer to the end of the year, it is time to look at one of the integral parts of our membership – the yearbook. As a member, you receive one of these beautiful bound books in the new year, accompanied by your membership card. The current society was founded in 1970, but our yearbook production only started in 1974. For every year following, there was a book produced. That, to date makes 47 yearbooks. As impressive as that is, it is a testament to the hard work of many individuals over the years who produced the book. In the beginning, the books were mainly just plain text, but later images were added and even jokes. The most modern incarnations of our yearbook feature the annual photography winner on the front and beautiful articles and photos inside. Currently, Peter Hughes compiles and creates our yearbook. He does a wonderful job, and shortly will begin next year's edition. The photo that you see shows all the yearbooks from 1974-2020. I hope you have enjoyed this trip into the archives. Stay tuned for next month's edition.
